FOR IMMEDIATE RELEASE

LOS ANGELES---It was disclosed today that Rep. Shirley Chisholm (D-N.Y.) was committed to a private home for the mentally ill from Feb. 1951 until April 1952 near Hampton, Virginia at the Southern-Rest Nursing Home. At that time she was diagnosed as a hebephrenic schizophrenic. She was committed only after being detained by the authorities in Richmond, Virginia as a transvestite in men's clothing and being hostile and aggressive to local citizens. The attending physician at her commitment, Dr. Robert J. Swanson wrote that Rep. Chisolm, "makes facial grimaces, talks and gesticulates to herself, exhibits inexplicable laughter and weeping, and at times has an abnormal interest in urine and feces which she smears on walls and herself."

Since her discharge "she has been and is currently under periodic psychiatric consultations in Washington, D.C. and New York City. She has not been committed to any institution since 1952.

The voters of the nation should be aware of a candidate's full record and background so an intelligent and meaningful choice can be made. Black voters should be made aware of these facts as her strongest appeal is to them.

[redacted] advised he was also unable to recall that a storage closet at HUMPHREY's headquarters was broken into before the California primary, and that HUMPHREY news release forms were taken.

[redacted] stated he does not recall being aware of or personally approving a denial concerning the fake news release regarding CHISHOLM. He noted that campaign press secretaries automatically released information in [redacted] name, and he was not aware of all such happenings that took place. [REDACTED] telephone [REDACTED]  
 was advised of the identities of the interviewing Agents and that an investigation was being conducted concerning a fake news release concerning Representative SHIRLEY CHISHOLM. [REDACTED] furnished the following:

Cerrell Associates is a public relations firm which handled the California campaign for Senator HUBERT HUMPHREY in the 1972 presidential primary. They also handled the Humphrey primary in several other states.

About two days before the June 6, 1972, California primary, the Humphrey Press Office received a call from a member of the news media and asked if a news release put out by the Humphrey people concerning SHIRLEY CHISHOLM was true. It was determined by the Humphrey press personnel that no such news release had been furnished to the news media concerning Representative CHISHOLM. [REDACTED] does not know exactly where or how the Humphrey campaign obtained a copy of the news release, but he furnished a copy of the news release and an envelope containing the release, which was mailed to Johnson Publications, 3600 Wilshire Boulevard, Los Angeles. [REDACTED] also furnished a copy of a Humphrey news release dated June 5, 1972, which denounced the CHISHOLM news release.

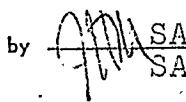

b6  
b7C

Examination of the fake news release and an actual news release by the Humphrey Headquarters disclosed the following differences:

The "contact" personnel in the upper left hand corner of the news release are listed [REDACTED] and [REDACTED]. In about May, 1972, the Humphrey campaign was being managed out of Cerrell headquarters and at that time, [REDACTED] and [REDACTED] names were placed on the news release. Sometime after May, the Humphrey Headquarters moved to 4015 Wilshire Boulevard, Los Angeles, and at that time the "contact" was listed as [REDACTED]. If a person got hold of a news release prior to the time they moved,

the contact personnel would be [redacted] and [redacted]

b6  
b7C

An actual news release has a complete date in the lower left hand corner of the news release. This date is always one day ahead of the actual date of the news release. A news release dated June 5, 1972, will actually be written and furnished to the news media on June 4, 1972. The fake news release had only the date 1972 in the lower left hand corner.

A sequential number is also listed in the lower left hand corner. The number on the fake news release is 240 and this number was approximately 100 numbers off.

Examination of the envelope, in which the news release was enclosed, disclosed that a regular 8¢ stamp was used, however, all Humphrey literature was mailed using the postage meter.

The address on the envelope appears to have been placed thereon using a gummed label. All Humphrey material was addressed using an addressograph machine.

There were several misspellings in the fake news release which would not have appeared in the actual news release because it is proofread numerous times to stop such an error.

[redacted] does not know where an original of this news release may be obtained. He believes a radio station in Oakland, California, contacted the Humphrey Headquarters inquiring about it.

b6  
b7C

Sometime shortly before this fake news release came out, a local storage closet at the Humphrey Headquarters was forced open. The lock was broken and an unknown number of blank news release forms were stolen. [redacted] does not

know who may have gotten these blank forms but [redacted]  
[redacted] telephone [redacted] may have information about  
that. [redacted] who was in the Press Department and  
may have some information about this matter, can be  
reached at [redacted]

b6  
b7C

Two newsmen [redacted] with the Washington Post, telephone [redacted] and [redacted] of the Los Angeles office of the New York Times, told [redacted] that they had the telephone records of [redacted] Allegedly [redacted] had called the office of Cerrell Associates and also the Humphrey campaign headquarters telephone number. He had also called Gesstetner Corporation, which is the printing firm which printed data for the Humphrey campaign. In addition, newspaper men stated that they had called several girl friends of [redacted] who told them that [redacted] had a mimeograph machine in his bedroom.

b6  
b7C

[redacted] felt that [redacted] may have put out the fake news release. [redacted] was asked how the real news releases were printed and he said that all news releases were typed on an IBM Selectric typewriter and then were mimeographed in the Humphrey headquarters. The news releases were then furnished to news media throughout the state. Some of the typewriters they used were rented and some were bought and it would be impossible to try and trace them at this time.

[redacted] who was involved in the campaign and who could furnish information concerning the news release, is living in Minneapolis, Minnesota, telephone [redacted] is somewhere in Florida and can be contacted through [redacted] who is [redacted] to Senator HUBERT HUMPHREY. Her telephone number is [redacted]  
[redacted]

FOR IMMEDIATE RELEASE

BOGUS NEWS RELEASES ISSUED ON HUMPHREY LETTERHEAD, DENOUNCED BY HOP HUMPHREY AIDE

LOS ANGELES, June 5--Bogus news releases on Humphrey for President letterheads appeared throughout California today in an apparent last-minute effort to confuse voters and the news media. Humphrey for President Campaign Manager Jack Chestnut denounced the two bogus releases as "the lowest kind of dirty politics."

One release purported to signify Humphrey support for Proposition 9, an antipollution preposition on the June 6 ballot.

"Senator Humphrey has not spoken for or against Proposition 9, nor has anyone in his campaign organization," said Chestnut. "We have put out no news release. What has appeared on editors' desks this morning is bogus and does not emanate from the Humphrey campaign."

The other release mentioned Congresswoman Shirley Chisholm, who is also in the Democratic Presidential Primary ballot, in a derogatory manner. "This release is completely false. It does not come from the Humphrey campaign," Chestnut said. "Like the other release, it is spurious and bogus."

Chestnut noted that the mimeograph paper supply cabinet in the Humphrey campaign headquarters had been rifled during the evening of June 4 and that several reams of news release paper apparently been stolen.

He also allegedly sent out "bogus" news releases regarding illegal use of Government typewriters in the MUSKIE Campaign Headquarters.

[redacted] home address [redacted]  
 [redacted] appeared personally at the FBI Office, Los Angeles. He was advised of the identity of the Agent and that an investigation was being conducted concerning a fake news release which was printed on HUMPHREY for President stationery. [redacted] furnished the following information:

b6  
b7C

During the 1972 presidential primary in California he was working as a press aide in the campaign of HUBERT HUMPHREY for President. On Friday or Saturday before the June 6, 1972, primary, he received a phone call from a radio station in the San Francisco Bay area. The individual said that he had a press release from the HUMPHREY headquarters and desired to question [redacted] about it. [redacted] had learned earlier in the day that someone had put out a fake news release on HUMPHREY news release paper regarding representative SHIRLEY CHISHOLM. He told the individual that the release was false and that the HUMPHREY people knew nothing about the release. He does not know of anyone else who contacted the HUMPHREY headquarters questioning this news release.

b6  
b7C

There was apparently another fake news release put out on HUMPHREY paper because someone mentioned that a press release had been printed up saying that Senator HUMPHREY was in favor of Proposition 9, which involved a State referendum. Proposition 9 had to do with the environmental initiative and the item was quite newsworthy. The news release allegedly stated that Senator HUMPHREY was in favor of the initiative when, in fact, he had taken no stand on it whatsoever. It had been agreed among the candidates that no stand would be taken on State issues. After reviewing a copy of the fake news release [redacted] stated he noticed it had no title. All news dispatched by the HUMPHREY headquarters did carry a title. Had the news release been issued by a member of the HUMPHREY campaign it would have been very easy for the individual to have obtained the correct sequential number which would have been placed in the lower left hand corner. Anyone in the campaign would have been able to receive the correct number had they desired. The typewriter which was used to type the fake news release was not the same type used by the HUMPHREY campaign.

He does not know whether or not any HUMPHREY stationery was stolen. A door in the supply closet had been taken off the hinges at some time but [redacted] does not know whether this was done by a person who had forgotten his keys or whether it had been done by someone attempting to steal stationery. The campaign headquarters was organized in such a way that just about anyone walking off the street could walk through the xeroxing unit or the closet and pick up stationery. The area was poorly organized and the restrooms were located in such a way that anyone coming off the street would have to go through the xeroxing unit to go to the restroom.

b6  
b7C

It is the opinion of [redacted] that approximately 20 persons called HUMPHREY headquarters questioning this fake news release. He personally checked with City News Service, which is a news release distribution center in Los Angeles. They had not received a copy of the fake news release and, therefore, it is [redacted] opinion that it was not widely distributed. Nearly anyone who knew anything about news releases would furnish a copy to City News Service, who would then furnish it to the news media.

b6  
b7C

[redacted] was shown photographs of [redacted] and [redacted] and asked if he recognized any of these people. He stated he did not. He also stated he had never heard of any of these individuals other than [redacted] through the news media.

b6  
b7C

[redacted] could furnish no further information and stated that he would be leaving the Los Angeles area to enter Hastings School of Law in San Francisco.

During the 1972 presidential primary in California, she was a paid member of the HUMPHREY campaign. She had the title of [redacted]. She furnished the information that a few days before June 6, 1972, the date of the primary election, she received a phone call from a female who worked for Ebony Magazine in Los Angeles. This female told [redacted] that they had received a news release on HUMPHREY stationery concerning representative SHIRLEY CHISHOLM. The representative of Ebony wanted to know if the news release was true and [redacted] denied that the HUMPHREY campaign had furnished the release. [redacted] requested to see the news release and went to the Ebony Office, address not remembered at this time. She was shown a copy of a news release and envelope by the representative at Ebony Magazine. The release appeared to be printed on legitimate HUMPHREY news release stationery and the envelope appeared to also be legitimate. She did notice that the eight cent stamp on the envelope was not cancelled and, therefore, it could have been hand delivered by someone. A xerox copy of the news release was obtained and copies were furnished to the HUMPHREY headquarters.

b6  
b7C

The United Press International, Sacramento, California, and the Associated Press, San Diego, California, contacted [redacted] and indicated they had received the news release and asked about its validity. She told them that it was not a legitimate news release.

b6  
b7C

[redacted] of the HUMPHREY headquarters may be able to furnish other information about this matter because he did mention that some stationery might have been missing from the headquarters.

During the 1972 Presidential Primary Campaign in California, he was a paid employee of the HUBERT HUMPHREY Campaign. He had the title of [redacted] Headquarters at 4015 Wilshire Boulevard, Los Angeles.

b6  
b7C

Two or three days prior to the June 6, 1972 election in California, he heard about a fake news release concerning Representative SHIRLEY CHISHOLM which had been put out on HUMPHREY stationery. He was busy doing other things and did not get involved with the news release which was subsequently put out by the HUMPHREY Campaign denying the fake news release. Several days after the fake news release was received by various news media some of the news releases which had been misaddressed were returned to the HUMPHREY Headquarters and he destroyed the fake news releases. He did not want anyone to get hold of them and think they were real.

He has no idea who placed the fake news release and he does not know whether or not any news release stationery was missing from the Campaign Headquarters.

[redacted] was a "fanatic" about locks being on doors and he did have a lock put on a closet in the Headquarters, this closet containing HUMPHREY stationery. One morning, date not remembered, the door had been taken off the hinges, but [redacted] does not know if this was because someone forgot their key or someone had actually tried to steal something. None of the doors in the building were forced as far as [redacted] knows, and the building was opened twenty-four hours a day for some time.

b6  
b7C

All of the HUMPHREY stationery was printed by the Aldine Company, 1160 South Figueroa, Los Angeles, telephone number 749-7001. The data on the news releases were actually printed on mimeograph machines at the HUMPHREY Headquarters. The mimeograph machines used by the HUMPHREY Headquarters came from various places including the Gestetner Corporation, 3000 Beverly Boulevard, Los Angeles, telephone number 385-9451.

[redacted]  
[redacted] was interviewed at his office and provided the following information:

b6  
b7C

During the 1972 Primaries he was Senator HUMPHREY's [redacted] but never even heard of the existence of any news releases concerning Representative SHIRLEY CHISHOLM printed on official HUMPHREY news release forms.

However, he did learn of two other phony press releases attributed to HUMPHREY during the California Primary from former [redacted] with the Humphrey Campaign. On either June 6, 1973 or June 7, 1973, following a break in at the Humphrey Campaign Office in Los Angeles on Wilshire Boulevard, [redacted] boarded the chartered campaign plane used by HUMPHREY at Los Angeles upon landing. He [redacted] told him of the break in and the appearance of two subsequent news releases using Humphrey Campaign news release forms. These releases that had been put out urged the people of California to vote the unpopular way on 2 local referendums concerning ecology and some other issue.

b6  
b7C

After informing him, [redacted] attempted to counter these releases by taking the microphone on the plane and explaining to the local and national press on board what the true story was. He indicated that Senator HUMPHREY had taken no position, the releases were phony and they followed the break in of the Humphrey Campaign Office in Los Angeles.

He also noted that the Humphrey Campaign was plagued by demonstrators and hecklers in opposition to the Vietnam War in two localities in California they would least expect to find them, namely San Diego and Santa Barbara. At San Diego they encountered 25 demonstrators at an auditorium of a labor school and yet San Diego is considered a very conservative city. At Santa Barbara, which is also very conservative, they encountered 6 demonstrators in a guerilla theater staged outside the Channel City Club. He noted that [redacted]

would have the details concerning the above demonstrations as well as the phony news releases.

He explained that the appearance of these demonstrators made Senator HUMPHREY look bad and also led to dissent between the Humphrey and McGovern Campaign staffs. The HUMPHREY people were inclined to believe that MC GOVERN was behind these demonstrators. All in all he would say that these incidents along with the phony [redacted] press release would fit the [redacted] style from what he has read, but he has no evidence this is actually the case.

Finally, he identified the [redacted] connected with the Humphrey Campaign Press Staff as [redacted] a former [redacted] to [redacted] who acted as a contact man for press releases. Therefore, the notation that [redacted] was to be contacted for verification on the phony CHISHOLM press release would be fairly accurate.

He is currently employed by his [redacted]  
 [redacted] at [redacted] Telephone [redacted] and is also working at the [redacted] for District Attorney Campaign Offices located at 204 South Broad Street.

During the 1972 Presidential Primary Campaigns, he was employed by the Humphrey Press Office and recalled an incident involving a fake press release regarding SHIRLEY CHISHOLM. [redacted] recalled the incident occurred on Saturday, June 3, 1972. He had been sent to San Francisco to take over the Humphrey Press Office there and received calls from two or three newspapers regarding a news release made regarding SHIRLEY CHISHOLM. The release supposedly was printed on a Humphrey news release form and the newspapers were attempting to verify the authenticity of the release.

[redacted] also recalled he was contacted by either United Press International or Associated Press. He could not state with certainty which news agencies contacted him. After hearing the content of the news release, [redacted] contacted [redacted] at the Los Angeles Humphrey Press office. [redacted] advised [redacted] the Los Angeles Office had also received inquiries regarding the news release. [redacted] then sent [redacted] a copy of the release by way of telephone telecopier.

b6

[redacted] commented that to his recollection the fake release contained a notation to contact [redacted] for verification. [redacted] advised this individual did in fact work in the Los Angeles Humphrey Press Office and was frequently used as the contact name in legitimate press releases. He further advised [redacted] of [redacted] Los Angeles, would know how to contact [redacted]

b6  
b7C

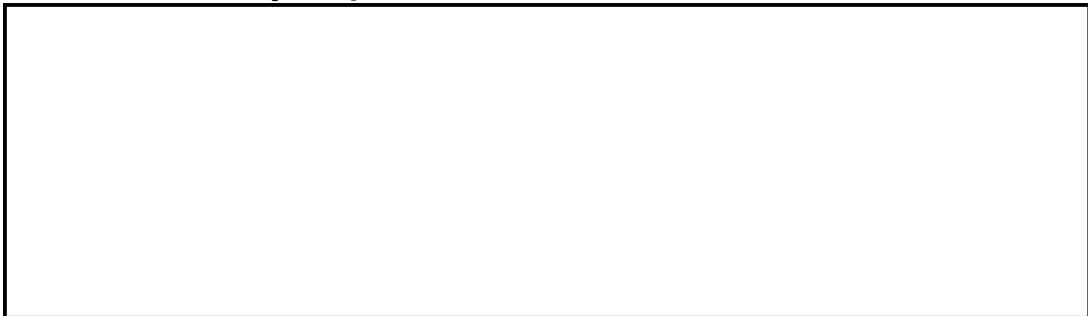

[redacted] noted that while he was not in the Los Angeles Office at the time of the Chisholm Press Release, he was aware the office was manned around the clock during the week or possibly two week period prior to the fake release. He stated the youth for HUMPHREY had a boy and girl staying at the office all night to answer telephones in a "hot line" type operation.

[redacted] advised [redacted] was in charge of the Los Angeles Humphrey Office at the time the fake release was made and might have information regarding the incident. He is currently employed by a larger newspaper in Saint Petersburg, Fla.

b6  
b7C

In regard to the fact the fake release was printed on official News Release form which lacked an address, [redacted] stated it was common practice when opening a temporary office to leave the address off the initial forms, and then type it in when a release is made. He speculated the form used could have been an old form no longer in use.

[redacted] was exhibited the following photographs and asked to identify any individual he knew:

After viewing the above photographs, [redacted] advised the only photograph he recognized was that of [redacted] [redacted] and this was only because he had seen it in the newspapers. He further advised he had never met [redacted] and had no personal knowledge regarding him.

By letter dated 7/13/73, the Office of the Special Prosecutor had requested that an investigation be conducted to determine the originator of the special news release made in California concerning Representative Shirley Chisholm during the California Presidential Primary. This press release revealed that Mrs. Chisholm had a history of "...sexual and psychological problems."

By report dated 9/12/73, the Los Angeles Office closed their investigation in this matter having exhausted all leads. The Los Angeles Office had previously requested permission for the interview of  political ~~prankster~~ and saboteur, because of the possibility that  was the originator of captioned news release. The Office of the Special Prosecutor indicated, however, that they would question  pertaining to this news release since  had agreed to cooperate with the Office of the Special Prosecutor.

On 9/17/73, Assistant Special Prosecutor Richard Davis advised that in a statement made to Davis on that date, prior to  arraignment in Washington, D. C., for Election Law violations committed in the Middle District of Florida,  admitted that he was the originator of captioned news release. Mr. Davis advised that the Office of the Special Prosecutor desired no additional investigation in this matter.

[redacted] stated that just prior to the primary elections in 1972, she had a telephone call from one of the political reporters working for the "San Diego Union" or the "San Diego Evening Tribune" stating that they had in their possession a news release on HUMPHREY stationery out of Los Angeles, California. This news release was described to her as a racist attempt on SHIRLEY CHISHOLM by HUBERT HUMPHREY. The news release was supposed to deal with the mental condition of SHIRLEY CHISHOLM. was advised of the identities of the Agents and that an investigation was being conducted concerning a news release on Humphrey stationery regarding Representative SHIRLEY CHISHOLM. [redacted] furnished the following information:

[redacted] represented Senator HUBERT HUMPHREY when he entered the presidential primary in California during 1972. He was aware that there were apparently two news releases put out on Humphrey stationery which were false. Sometime two or three days before the primary, someone called him up and told him that two news releases had been put out on Humphrey stationery, one regarding Proposition 9, and one regarding Mrs. CHISHOLM. After the California primary, [redacted] immediately left for Washington, D.C., to help out in other primaries. He said he could furnish no further information and that he had only seen copies of the CHISHOLM news release but never did see the Proposition 9 release. He was not familiar with any disruptions as such at Humphrey rallies. [redacted] explained that very seldom did he go with the candidates but usually stayed at the offices. [redacted] who is now with the National Education Association Headquarters, Washington, D.C., was involved in the scheduling end of the campaign and he would be more familiar with these type of situations. [redacted] also explained that Senator HUMPHREY was a "slow starter". Very often he was behind schedule and on one occasion in Santa Barbara there was a problem. He was scheduled to speak at the Channel City Club and was one hour and ten to twenty minutes late. When he arrived, everyone had gone. This matter had been discussed with the news media and [redacted] believes it was HUMPHREY's fault.

During the 1972 Presidential Primary, he was the [redacted] for Senator HUBERT HUMPHREY. One morning shortly before the California Primary, he was in the press office at the HUMPHREY Headquarters in Los Angeles when they began receiving numerous telephone calls regarding a news release on HUMPHREY stationery concerning Representative SHIRLEY CHISHOLM. This news release had not been given out by the HUMPHREY Headquarters, and he does not know who might have printed it up. He never did see a copy of the news release but does know that the news release concerns certain problems concerning SHIRLEY CHISHOLM. [redacted] does not know who may have received copies of this news release. He was in and out of the headquarters on numerous occasions on this date, and he does not remember which news media might have called the headquarters to inquire about the release.

He also remembers some type of talk about a false news release on HUMPHREY stationery regarding a State proposition which was also on the ballot. He has no details whatsoever regarding that release. He also remembers some type of talk about a third false news release, but he has no information regarding that.

The MC GOVERN Campaign was in a building down the street from the HUMPHREY Campaign. At one time he thought this news release may have been put out by over-zealous MC GOVERN people. He also thinks that about the time this incident took place, there was some stationery missing from the HUMPHREY Headquarters. He could furnish no further information.

[redacted] was contacted and advised of the identity of the Agent and was shown an original of an envelope to Johnson Publications and a news release on HUMPHREY 1972 stationery regarding SHIRLEY CHISHOLM. After checking the documents, [redacted] furnished the following information:

b6  
b7C

The documents do not appear to have been prepared by a professional mailing company. The label on the envelope appears to be a carbon copy and is not of the type usually made by professional printers. The perforation was a different type than those used by professional mailers. He added that the envelope and news release stationery would not necessarily have to be originals printed by the Aldine Company. He could take the documents mentioned above into his print shop and make copies of the heading and it would be nearly impossible to determine the difference in an original and a copy. He explained that the ink would possibly be different, but the coloring and the detail would be exactly the same. It was also his opinion that the text of the news release had been mimeographed and had not been done at the same time the letterhead had been printed. Had the work been done by a professional firm, some type of record should be kept.

[redacted] looked in several professional directories regarding publishing companies and all of the directories showed Johnson Publishing Company but showed no recording of Johnson Publications. He said he could not furnish any further information regarding this matter.

The following investigation was conducted by  
SA [redacted]

On August 13, 1973, [redacted] now of [redacted] Mill Valley, California, with home telephone number [redacted] advised she had been the [redacted] for the 1972 Hubert Humphrey Democratic Presidential Campaign. She recalled having received a telephone call in possibly early May, 1972, from a female news reporter. The reporter, whose name and employing newspaper was not recalled, asked whether [redacted] had received a copy of a very damaging news release sent out of Humphrey-72 letterhead and which news release alleged various mental deficiencies of SHIRLEY CHISHOLM. [redacted] said she knew nothing of that news release and called the Los Angeles, California, headquarters of the Humphrey campaign. In that telephone conversation, she learned the Los Angeles Office had been burglarized and it was presumed letterhead had been obtained and false information was entered on the Humphrey letters.

b6  
b7C

Subsequently a disclaimer was sent to newspapers throughout Northern California saying that in general the above incident had occurred and the Humphrey campaign had no part in it. No suspects have ever been identified or referred to in other conversations to [redacted]

[redacted] with [redacted] telephone number [redacted] advised on August 13, 1973, she too, had been questioned by representatives of the news media regarding the above referred to Humphrey-72 letters which may have defamed SHIRELY CHISHOLM. [redacted] said she had no knowledge of that letter and said she had never received a copy of it and had no suspects as to who may have prepared or disseminated it.

b6

[redacted] advised on August 13, 1973, that he had been the [redacted] of the SHIRLEY CHISHOLM for President Committee. He recalled that he had seen a copy of a defamatory news release concerning SHIRLEY CHISHOLM but had no suspects as to who may have prepared or disseminated this. He added none was sent to him and he did not know who had an original of that in his or her possession.
